BIM MODELS NOW AVAILABLE FOR METAL-ERA PRODUCTS

Waukesha, WI—Metal-Era, Inc., the national leader in commercial roof edge and roof ventilation solutions, announces that they have teamed with CADdetails to provide BIM content for their most popular products.

Twenty-three BIM models are currently available for Anchor-Tite fascias, Perma-Tite fascias and copings and Hi-Perf ventilation product lines. Additional models will also be available soon.

“BIM content is quickly becoming essential in the design phase of many projects,” says Tony Mallinger, Chief Operations Officer. “We are always committed to providing useful tools and resources to the architectural community, so it made sense to offer the models for Metal-Era products.”

For more information or to access Metal-Era’s BIM models, visit Metal-Era’s website, www.metalera.com, or call 800-558-2162.
